Dear Mike:

Attached is the living will and your Durable Healthcare Power of Attorney. Enclosed in the smaller manila envelope is a copy of the will, and instructions and wishes. If these documents become misplaced, they are on file at the AIDS Law Project:

If I should ever be hospitalized, and not able to contact people myself, here is how to contact my primary doctor, Jay Kostman. He is no longer affiliated with any hospital, but he knows people at every hospital in the area, in addition to knowing my feelings on certain things. He will also be receiving a copy of the living will. Please use the office numbers first. The cell number is for emergencies, and he can be texted. (I would like him to be invited to any memorial.)

Also here is the contact info for Trev:

Trev Gibb
trev.gibb@gmail.com
Phone: 39 327 025-6668

Included in this package is a list of various people to be contacted and other instructions. If I ever become sick, and am unable to contact him myself, I would want Trev to be contacted immediately.

Also included are instructions on what I would like done with my various possessions if possible, memorial service, and things (that as of now) will need to be dealt with fairly quickly. Names with an asterisk are people I would like to be asked if they'd be interested in any records, cds or books, etc. Also if there is a memorial service, I've enclosed a CDR, with two versions of Bob singing "I Shall Be Released," the first track to be played at the beginning, the second at the end. The instructions are longer than I thought they'd be, but cover stuff like taking down the website, stopping food stamps, Medicaid, and social security etc.

It goes without saying that I want you take any records, CDs, books, videos etc., you want. I know you had to sell a lot of your music and there is a lot of great and rare stuff in all the mediums.

Finally, I want you to know there is not a day, actually not a minute that I'm not grateful for everything you've done. The love, compassion, encouragement, and help you've given is beyond belief, and I think about it often and it brings me to tears. And that you've done all that in a totally nonjudgmental way means everything to me. My own family (immediate family and my cousin Jon excluded) never showed me that. You are a true friend, and I wish I had a better way of conveying what I feel. I love you!

Love,

Peter
